or acceptance to Chairman Harding, is construed as removing any doubts about his intention to wage a vigorous campaign from the very start.

The nominee plans to be in New York in time to meet the republican leaders returning from the Chicago convention. He will seize the opportunity also, if time permits, to get in touch once more with the situation in New York state. The time of his return to Washington has not been fixed, but he may stay only a few hours. In any event, he will return in ample time to receive the official notification of his nomination later in the week.

The chief questions to be discussed now concern the selection of a chairman of the national committee and the nature of the presidential campaign, particularly the part to be played by Mr. Hurtes himself. Points to be emphasized in the notification will be considered. Rome, June 11, via Paris, 5.25 p. m.—All parties agree that the new Italian cabinet must have a national character. It s suggested that it comprise all the leading statesmen with a view to uniting in the supreme struggle with political opinions except that of the intransigeant socialists, about forty of whom oppose the war as a principle. WOMEN SUFFRAGISTS ARE FLOCKING INTO ST. LOUIS To Insist on an Equal Rights Plank in

the Democratic Platform.

St. Louis, June 11.—Disappointed but not dismayed by the result of their labors at the republican convention, women suffragists today began pouring into St. Louis to insist on a full-fledged equal rights plank in the democratic platform.

Regarding their failure to induce the resulting and the enders of the many contents.

Regarding their failure to induce the republicans to endorse suffrage by constitutional amendment as a temporary setback, the suffrage leaders insisted that good might come out of the situation. Democratic leaders, they argued, should take action to capture the very large woman vote in the suffrage states.

states.

A declaration for woman suffrage in the democratic platform, suffrage leaders insisted, would mean added thousands of votes for President Wilson and the rest of the ticket this fall.

Many political observers predict that inasmuch as the nominations virtually are conceded in this convention, the most interesting fight will center in the suffrage issue. Peace and prohibition, of course, will attract much attention, but the suffrage leaders insist that these issues soon will be oversing down by the dominating influence of the question of equal rights.
